## EMERGENCY NUMBERS

Dial 911 or call

Sheriff's Office: 318-766-7001

The Office of State Parks is happy to be able to offer wireless Internet access to our guests. Anyone with a laptop or device that possesses wireless accessibility (i.e. a wireless card) should detect the signal automatically.

If you are operating in a Windows environment, you may also connect to the wireless network by opening the Control Panel (Start, Settings...) and selecting Network Connections. The park's network will be listed as **BRUI-WIFI**; password-Parkwifi. Please be advised that if you have problems connecting to the wireless network, you should consult your laptop's operating manual. Our site staff is not trained to offer technical support for wireless service.

We ask that while connected to our network service, you please avoid activities that can be considered fraudulent, illegal or sexually explicit. Also, please refrain from excessive transmissions (i.e. spamming) and file sharing. These activities will result in bandwidth limitations and the eventual loss of service. Wireless Internet service is just one of the services we are providing as a way of making your stay with us more enjoyable.

## THANK YOU FOR YOUR COOPERATION.
