Bay County

Home of the World's Most Beautiful Beaches

Please Observe These Guidelines For Everyone's Convenience

1. 10 MPH speed limit - enforced. Violators will be fined.
2. No pets allowed. Support animals must be pre-approved by management.
3. Let's all help to keep our pools safe. Please comply with pool rules and keep an eye on your fellow swimmer. Infants must wear rubber pants at all times when in pool.
4. Parents - Please remember that you are responsible for the safety and behavior of your children.
5. No external clotheslines allowed.
6. All motorcycles and scooters must be registered and have a parking pass. They can only be used for access to and from the units. Keep the engine noise to a minimum. No engine revving while in the community.
7. Quiet hours are from 10 PM - 8 AM. No excessive noise, music, etc.
8. We have very limited storage for boats, trailers, etc. If you plan to bring either, call ahead. Commercial storage is nearby.
9. For safety's sake, bicycles used during the hours of darkness must be equipped with working headlight and rear reflector. Anyone under the age of 16 must wear a helmet.
10. Please remember that every house and lot is privately owned. Many owners live here year-round. Do not trespass on other's property.
11. Golf carts have the same operating rules as cars and trucks. They can only be driven by a licensed driver. All carts must have working front and rear lights if used after dark. Drivers will be fined for underage driving, speeding and reckless driving. Most golf carts will go faster than our 10 MPH speed limit!
12. No display of signs.

Please Note

- The main office oversees the common amenities, security, parking and enforcement of park rules only. Should you need assistance regarding your RV lot or rental home, please contact your rental agent.
- If you should find any resort facilities not operating properly, please report to the office.
- Please do not park vehicles on unrented lots, on the grass or on Venture Blvd.
- Please do not move picnic tables or benches.
- All garbage should be taken to the trash compactor located behind the maintenance building.
- A current and complete set of rules may be obtained from the office.

Thank You! - The Management
